Washington, DC 20554

CG Docket Nos. 13-24 and 03-123

RE: Please Grant FCC Approval of the InnoCaption App
Created by Miracom for Smartphone Devices

Dear Secretary Dortch,

I am writing to strongly endorse the InnoCaption product for a Smartphone and urge the FCC to grant speedy approval of this product for the deaf and hard of hearing community. A product like this is in great demand for those with a hearing loss trying to function in society and compete for employment with the hearing community. It offers a level playing field that is not currently available with other caption products. As a Hearing Loss professional it is important for me to communicate with our users and this is one way we can help our users in their daily life. Many professionals who support users of hearing aids and cochlear implants would be able to communicate with our users when they are in need of support.

I am not connected with Miracom or the InnoCaption product in any way. I think it is important to have this service available to those with hearing loss.

This InnoCaption product is just the app many hearing loss professionals Smartphone users have been looking for. We need the FCC to approve it quickly so we can begin using it now. I urge the Commission to grant quick approval of this product for our sake.

Thank you for taking serious note of this request.

Sincerely,

Jeanne Fredriksen
